Resources and Ideas for LGBTI Champions

Following a meeting held with the Anchor activities organisers and some of the community advisors, the ideas discussed and some additional ones are included here for your information.

This is not an exhaustive list but hopefully it will provide some ideas for you to take forward the work already underway in the homes to make the services provided more inclusive to the older LGBTI communities.

Ideas discussed at the meeting:

Create an information leaflet – explaining the aims of the project, including photos of the champions with a named person to contact and an invitation to come and meet them.

Create a newsletter – explaining a bit about the project and what events/activities you will be holding to celebrate the LGBTI communities.

Staff Training:
Ensure that all staff have been able to attend the sessions provided by the community advisors. Work with staff to identify their further training needs and identify how managers and team leaders can continue to help raise staff awareness on understanding the needs of people from the older LGBTI communities, in particular to gain a greater understanding of the issues and challenges that they face when entering residential care and how staff can offer them a safe and inclusive environment.

Support Group for Champions:
A suggestion that Champions organise a support group and meet together twice a year.

Hold an open evening or an event and invite someone from a LGBTI organisation to give a talk.

Hold a coffee morning - which includes showing LGBTI imagery and telling stories celebrating the achievements of older LGBTI people.

**Stonewall**: [http://www.stonewall.org.uk/](http://www.stonewall.org.uk/)

This organisation produces a variety of information leaflets that may be useful to help continue to raise staff awareness. They also run training programmes to raise awareness of LGBTI issues which maybe of interest.
Their mission:
“We're here to let all lesbian, gay, bi and trans people, here and abroad, know they're not alone. We believe we're stronger united, so
we partner with organisations that help us create real change for the better. We have laid deep foundations across Britain - in some of our greatest institutions - so our communities can continue to find ways to flourish, and individuals can reach their full potential. We're here to support those who can’t yet be themselves.

But our work is not finished yet. Not until everyone feels free to be who they are, wherever they are”.

And they: support individuals to work out how they can make a difference for LGBTI people at work, at home and in their communities.
