

4 PRESS 4

Private View
Tuesday 30 January 1996
6.30 - 8.30 pm
31 January - 1 March

Martin and David Beevers have developed and built a radical new hydraulic printing press. A prototype version is housed at LPW.

Matthew Meadows has brought together four printmakers who will use LPW's Beevers' Press during January - himself, Matthew Hilton, Timo Lehtonen, and Stephen Mumberson.

This work will be shown in the gallery throughout February.
